This internship involves the repairing and strengthening of pavement NH59A where I learnt how different layers of the pavement are constructed.

• Khushi Society for Social Service, Chandauli

Duration – June, 2013

It was a social and civic internship which provided an opportunity of contributing our time, managerial skill and knowledge to make a difference in a social sector.

PROJECT

B.Tech project on Delineation of Watershed by using ArcGIS. The project aims at case study of Hathmati basin a tributary of river Sabarmati in the topo sheets 46A13, 46A14, 46A15, 46E1 & 46E2 of Gujarat Map. The project aims at obtaining the flood frequency, high flood level, low flood level & geomorphology of the river such as length, width, perimeter, area, discharge, etc of the basin by use of software which makes the work more easy and less time consuming as compared to manual methods.

SOFTWARES (Hands on Knowledge)

- AutoCAD
- STAAD.Pro
- Microsoft Office
